

Vista 3D sezione A-A

A 3D architectural rendering of a modern building complex. The main structure is a multi-story building with a flat roof and large windows. To its left is a smaller, two-story building with a chimney. A yellow structural frame is highlighted on the right side of the main building, showing the internal support system. The entire complex is situated on a flat, light-colored ground plane.

Vista 3D sezione B-B

This 3D cutaway view illustrates the internal layout and structural elements of the building. The roof profile is clearly visible, showing a series of interconnected planes. The interior spaces are defined by walls and floors, with some areas highlighted in yellow and green to indicate specific structural or functional zones. The building's footprint and surrounding context are also visible.
